## M2S Mobile App for iOS (Apple mobile devices)
1. Open the App Store on your iPhone or iPad and search for "Cloud Softphone."
The application to download should look like the screenshot below. Then click on the
download button to the right (looks like a cloud with an arrow pointing down).

When the application is finished downloading and installing, the download button will
read "open" as pictured below. Click on the "open" button.

Your screen will now show something similar to the screenshot below.

Click on the "Scan QR" code button. Your camera application will open. Point your camera lens towards the picture below. Your device will automatically take a picture as soon as it senses the QR code pictured below:

The user may see the application change screens a few times. Just give the application a few moments. The user will be prompted to grant permissions for notifications. Allowing notifications is recommended, as this will affect incoming calls, missed calls, voicemail alerts, etc. See screenshot below:

I Agree   Read

Terms & Conditions

By pressing "Agree" button, you have read, understood and agreed to the "Terms &

"Softphone" Would Like to Send You Notifications

Notifications may include alerts, sounds, and icon badges. These can be configured in Settings.

Don't Allow   OK

The user will be asked to view the terms of agreements. Tap on the "Agree" button near the top left corner.

**I Agree**   Read

Terms & Conditions

By pressing "Agree" button, you have read, understood and agreed to the "Terms & Conditions".

The user will be greeted with a screen asking for username, password, and domain. Please e-mail support@m2sintegration.com or call our office at 631-885-8233 to receive your specific user credentials.

Be sure to type exactly as you are instructed into these fields, then click "Save" near the top right corner of your display.
